Static in the System
Meredith C. Ward
2019-02-26 In this rich study of noise in American film-going culture, Meredith C. Ward shows how aurality can reveal important fissures in American motion picture history, enabling certain types of listening cultures to form across time. Connecting this history of noise in the cinema to a greater sonic culture, *Static in the System* shows how cinema sound was networked into

a broader constellation of factors that affected social power, gender, sexuality, class, the built environment, and industry, and how these factors in turn came to fruition in cinema's soundscape. Focusing on theories of power as they manifest in noise, the history of noise in electro-acoustics with the coming of film sound, architectural acoustics as they were manipulated in cinema theaters, and the role of the urban environment in affecting mobile

listening and the avoidance of noise, Ward analyzes the powerful relationship between aural cultural history and cinema's sound theory, proving that noise can become a powerful historiographic tool for the film historian.

The Essential Guide to Telecommunications

Annabel Z. Dodd
2019-03-19 "Annabel Dodd has cogently untangled the wires and switches and technobabble of the

telecommunications revolution and explained how the introduction of the word 'digital' into our legislative and regulatory lexicon will affect consumers, companies and society into the next millennium." - United States Senator Edward J. Markey of Massachusetts; Member, U.S. Senate Subcommittee on Communications, Technology, Innovation, and the Internet
"Annabel Dodd has a unique knack for explaining complex technologies in understandable ways. This latest revision of her book covers the rapid changes in the fields of broadband, cellular, and streaming technologies; newly developing 5G networks; and the constant changes happening in both wired and wireless networks. This book is a must-read for anyone who wants to understand the rapidly evolving world of telecommunications in the 21st century!" - David Mash, Retired Senior Vice President

What happens when omens have been misread, tea leaves misinterpreted, gurus embarrassed? Twenty years after the Netscape IPO, ten years after the birth of YouTube, and five years after the first iPad, the Internet has still not destroyed the giants of old media. CBS, News Corp, Disney, Comcast, Time Warner, and their peers are

still alive, kicking, and making big bucks. The New York Times still earns far more from print ads than from digital ads. Super Bowl commercials are more valuable than ever. Banner ad space on Yahoo can be bought for a relative pittance. Sure, the darlings of new media—Buzzfeed, HuffPo, Politico, and many more—keep attracting ever more traffic, in some cases truly phenomenal traffic. But as Michael Wolff shows in this fascinating and sure-to-be-controversial book, their buzz and venture financing rounds are based on assumptions that were wrong from the start, and become more wrong with each passing year. The consequences of this folly are far reaching for anyone who cares about good journalism, enjoys bingeing on Netflix, works with advertising, or plans to have a role in the future of the Internet. Wolff set out to write an honest guide to the changing media landscape, based on a

clear-eyed evaluation of who really makes money and how. His conclusion: The Web, social media, and various mobile platforms are not the new television.

Television is the new television. We all know that Google and Facebook are thriving by selling online ads—but they're aggregators, not content creators. As major brands conclude that banner ads next to text basically don't work, the value of digital traffic to content-driven sites has plummeted, while the value of a television audience continues to rise. Even if millions now watch television on their phones via their Netflix, Hulu, and HBO GO apps, that doesn't change the balance of power. Television by any other name is the game everybody is trying to win—including outlets like The Wall Street Journal that never used to play the game at all. Drawing on his unparalleled sources in corner offices from Rockefeller Center to

Beverly Hills, Wolff tells us what's really going on, which emperors have no clothes, and which supposed geniuses are due for a major fall. Whether he riles you or makes you cheer, his book will change how you think about media, technology, and the way we live now.

Now in a second edition, this textbook surveys the channels, platforms, and programming through which television distribution operates,

with a diverse selection of contributors providing thorough explorations of global media industries in flux. Even as legacy media industries experience significant disruption in the face of streaming and online delivery, the power of the television channel persists. Far from disappearing, television channels have multiplied and adapted to meet the needs of old and new industry players alike. Television viewers now navigate complex choices among broadcast, cable, and streaming services across a host of different devices. From Networks to Netflix guides students, instructors, and scholars through that complex and transformed channel landscape to reveal how these industry changes unfold and why they matter. This second edition features new players like Disney+, HBO Max, Crunchyroll, Hotstar, and more, increasing attention to TV services across the world.

Lidia's Italy Lidia Matticchio Bastianich
2010-08-18 Featuring 140 mouthwatering new recipes, a gastronomic journey of the Italian regions that have inspired and informed Lidia Bastianich's legendary cooking. For the home cook and the armchair traveler alike, Lidia's Italy offers a short introduction to ten regions of Italy—from Piemonte to Puglia—with commentary on nearby cultural treasures by Lidia's daughter Tanya, an art historian. · In Istria, now part of Croatia, where Lidia grew up, she forages again for wild asparagus, using it in a delicious soup and a frittata; Sauerkraut with Pork and Roast Goose with Mlinzi reflect the region's

Middle European influences; and buzara, an old mariner's stew, draws on fish from the nearby sea. · From Trieste, Lidia gives seafood from the Adriatic, Viennese-style breaded veal cutlets and Beef Goulash, and Sacher Torte and Apple Strudel. · From Friuli, where cows graze on the rich tableland, comes Montasio cheese to make fricos; the corn fields yield polenta for Velvety Cornmeal-Spinach Soup. · In Padova and Treviso rice reigns supreme, and Lidia discovers hearty soups and risottos that highlight local flavors. · In Piemonte, the robust Barolo wine distinguishes a fork-tender stufato of beef; local white truffles with scrambled eggs is "heaven on a plate"; and a bagna cauda serves as a dip for local vegetables, including prized cardoons. · In Maremma, where hunting and foraging are a way of life, earthy foods are mainstays, such as slow-cooked rabbit sauce

for pasta or gnocchi and boar tenderloin with prune-apple Sauce, with Galloping Figs for dessert. · In Rome Lidia revels in the fresh artichokes and fennel she finds in the Campo dei Fiori and brings back nine different ways of preparing them. · In Naples she gathers unusual seafood recipes and a special way of making limoncello-soaked cakes. · From Sicily's Palermo she brings back panelle, the delicious fried chickpea snack; a caponata of stewed summer vegetables; and the elegant Cannoli Napoleon. · In Puglia, at Italy's heel, where durum wheat grows at its best, she makes some of the region's glorious pasta dishes and re-creates a splendid focaccia from Altamura. There's something for everyone in this rich and satisfying book that will open up new horizons even to the most seasoned lover of Italy.

scope, and the magnum opus of one of America's most enduring authors, in a commemorative hardcover edition In his journal, Nobel Prize winner John Steinbeck called East of Eden "the first book," and indeed it has the primordial power and simplicity of myth. Set in the rich farmland of California's Salinas Valley, this sprawling and often brutal novel follows the intertwined destinies of two families—the Trasks and the Hamiltons—whose generations helplessly reenact the fall of Adam and Eve and the poisonous rivalry of Cain and Abel. The masterpiece of Steinbeck's later years, East of Eden is a work in which Steinbeck created his most mesmerizing characters and explored his most enduring themes: the mystery of identity, the inexplicability of love, and the murderous consequences of love's absence. Adapted for the 1955 film directed by Elia Kazan introducing James Dean, and read by

thousands as the book that brought Oprah's Book Club back, East of Eden has remained vitally present in American culture for over half a century. Social TV Mike Proulx 2012-01-26 The Internet didn't kill TV! It has become its best friend. Americans are watching more television than ever before, and we're engaging online at the same time we're tuning in. Social media has created a new and powerful "backchannel", fueling the renaissance of live broadcasts. Mobile and tablet devices allow us to watch and experience television whenever and wherever we want. And "connected TVs" blend web and television content into a unified big screen experience bringing us back into our living rooms. Social TV examines the changing

(and complex) television landscape and helps brands navigate its many emerging and exciting marketing and advertising opportunities. Social TV topics include:
Leveraging the "second screen" to drive synched and deeper brand engagement
Using social ratings analytics tools to find and target lean-forward audiences
Aligning brand messaging to content as it travels time-shifted across devices
Determining the best strategy to approach marketing via connected TVs
Employing addressable TV advertising to maximize content relevancy
Testing and learning from the most cutting-edge emerging TV innovations
The rise of one technology doesn't always mean the end of another. Discover how this convergence has created new marketing opportunities for your brand.

Social TV Cory Barker
2022-06-27 On March 15, 2011, Donald Trump changed television forever. The Comedy Central Roast of Trump was the first major live broadcast to place a hashtag in the corner of the screen to encourage real-time reactions on Twitter, generating more than 25,000 tweets and making the broadcast the most-watched Roast in Comedy Central history. The #trumproast initiative personified the media and tech industries' utopian vision for a multi-screen and communal live TV experience. In *Social TV: Multi-Screen Content and Ephemeral Culture*, author Cory Barker reveals how the US television industry promised—but failed to deliver—a social media revolution in the 2010s to combat the imminent threat of on-demand streaming video. Barker

examines the rise and fall of Social TV across press coverage, corporate documents, and an array of digital ephemera. He demonstrates that, despite the talk of disruption, the movement merely aimed to exploit social media to reinforce the value of live TV in the modern attention economy. Case studies from broadcast networks to tech startups uncover a persistent focus on community that aimed to monetize consumer behavior in a transitional industry period. To trace these unfulfilled promises and flopped ideas, Barker draws upon a unique mix of personal Social TV experiences and curated archives of material that were intentionally marginalized amid pivots to the next big thing. Yet in placing this now-forgotten material in recent historical context, *Social TV* shows how the era altered how the industry pursues audiences. Multi-screen campaigns have shifted away from a focus on

live TV and toward all-day “content” streams. The legacy of Social TV, then, is the further embedding of media and promotional material onto every screen and into every moment of life.

Invisible Child Andrea Elliott 2021-10-05
PULITZER PRIZE WINNER • A “vivid and devastating” (The New York Times) portrait of an indomitable girl—from acclaimed journalist Andrea Elliott “From its first indelible pages to its rich and startling conclusion, *Invisible Child* had me, by turns, stricken, inspired, outraged, illuminated, in tears, and hungering for reimmersion in its Dickensian depths.”—Ayad Akhtar, author of *Homeland Elegies* ONE OF THE TEN BEST BOOKS OF THE YEAR: The New York Times • ONE OF THE BEST BOOKS OF THE YEAR: The Atlantic, The New York Times Book Review, Time, NPR, Library Journal *Invisible Child*, Pulitzer Prize winner Andrea Elliott follows eight dramatic years in

the life of Dasani, a girl whose imagination is as soaring as the skyscrapers near her Brooklyn shelter. In this sweeping narrative, Elliott weaves the story of Dasani’s childhood with the history of her ancestors, tracing their passage from slavery to the Great Migration north. As Dasani comes of age, New York City’s homeless crisis has exploded, deepening the chasm between rich and poor. She must guide her siblings through a world riddled by hunger, violence, racism, drug addiction, and the threat of foster care. Out on the street, Dasani becomes a fierce fighter “to protect those who I love.” When she finally escapes city life to enroll in a boarding school, she faces an impossible question: What if leaving poverty means abandoning your family, and yourself? A work of luminous and riveting prose, Elliott’s *Invisible Child* reads like a page-turning novel. It is

astonishing story about the power of resilience, the importance of family and the cost of inequality—told through the crucible of one remarkable girl. Winner of the J. Anthony Lukas Book Prize • Finalist for the Bernstein Award and the PEN/John Kenneth Galbraith Award

Notable Americans of Czechoslovak Ancestry in Arts and Letters and in Education

Miloslav Rechcigl Jr. 2021-11-02 As pointed out in my last two publications, no comprehensive study has been undertaken about the American Learned Men and Women with Czechoslovak roots. The aim of this work is to correct this glaring deficiency, with the focus on immigration from the period of mass migration and beyond, irrespective whether they were born in their European ancestral homes or whether they have descended from them. Whereas in the two mentioned monographs, the emphasis has been on scholars and social and natural scientists; and men and women in medicine, applied sciences and engineering, respectively, the present compendium deals with notable Americans

of Czechoslovak ancestry in arts and letters, and in education. With respect to women, although most professional fields were closed to them through much of the nineteenth century, the area of arts and letters was opened to them, as noted earlier and as this compendium authenticates.

The Book of Revelation Made Clear Tim LaHaye 2014-07-15 A fun and fascinating way to learn about the book of Revelation. The Bible's final book, Revelation, can seem intimidating or downright impossible to

comprehend, even for serious students of the Scriptures. Filled with complex imagery, vivid depictions of violence, and challenging spiritual references, Revelation is often set aside by readers in favor of more straightforward, easier-to-digest biblical material. Yet the capstone of the canon need not remain a mystery. In this refreshingly accessible book, Bible scholar and best-selling author Tim LaHaye (originator of the Left Behind series) and renowned puzzle master Timothy E. Parker (editor of the USA Today Crossword, and founder of The Universal Crossword, King James Games, and Master Puzzles) demystify Revelation for your benefit. Absorb this book and discover afresh—or for the first time—the richness of Revelation and its God-breathed, life-changing power to deepen your walk of faith.
